This matter comes before the Public Service Commission of South Carolina (“Commission”) for the establishment of a procedural schedule for future electric fuel and purchased gas adjustment proceedings.

On July 8, 2020, the Commission, by Directive Order No. 2020-474, instructed staff to establish a discussion group with electrical utilities that are subject to annual fuel proceedings, the South Carolina Office of Regulatory Staff, the South Carolina Consumer Advocate, and interested stakeholders regarding possible modification to procedural schedules of current fuel case procedures. Staff scheduled a virtual forum for August 25, 2020, for discussion of the procedural schedules, and issued its Notice of Virtual Forum (“Notice”) on July 15, 2020. Along with other things, the Notice provided information on possible modifications to be discussed and advised any person who wished to participate in the virtual forum to notify the Commission of such desire and to file written comments no later than August 19, 2020.

Based on all the responses by the interested parties and stakeholders filed with the Commission in response to proposed changes to the procedural scheduling for electric fuel cases and purchased gas adjustments on a prospective basis, the Commission adopts the schedule as filed in the Docket Management System for this Docket on September 8, 2020, which is attached as Order Exhibit 1 for years 2021 and 2022.

The Commission further instructs the Clerk's Office to notify the parties and to use this schedule formula or time periods between prefiled testimony, hearing, and proposed orders as established by the schedule for year 2021 and year 2022 in the years following for Future Electric Fuel and Purchased Gas Adjustment Proceedings regarding each respective entity.

This Order shall remain in full force and effect until further order of the Commission.
